

# Website Update Ideas

**Add your website update ideas!**

## Branding

- **Clean but playful design:** Incorporate hand drawn graphics using standard Mesh color palette
- **Photo integration:** show our physical network
  - **Photos of our diverse member community**
  - **Photo visualization of mesh:** like the below example, but with more playful hand draw lines etc. to highlight our community values:

- **Clear graphics for most important topics** (also good for non English speakers)

## Consistency

- avoid repeating information (e.g., the \$290 install fee is mentioned on a number of pages, sometimes referred to as a donation and sometimes as an equipment cost). use links to

an authoritative page instead, so updates will be reflected.

# Interactive interface

Users could benefit from interactive design

- pre-join/new member presentation
- troubleshooting flowchart
- install-team sign-up
